Reasons for Allowance:

The independent claims recite an automatic call distribution system with connections to a VRU, agents and a communication system and limitations for the following:

"connecting both the interactive voice response system and the automatic call distribution system to a communication system of the communication network" and connecting at least one agent communication terminal equipment to the communication system"

The prior art of record does not teach these limitations. New search updates revealed no other prior art which teaches the limitations in the context of the claims. Therefore, Claims 19-45 are indicated allowable.

Continuation of Attachment(s) 9. Other: Claims 36-45 were not entered for the same reasons given in the 7/21/03 Advisory. The claims were entered in response to the 3/8/04 Brief. See the 4/5/04 Office Action, Paper No. 26.
